

## Axle Tech Parts

Axle Tech Parts - The company of AxleTech International is a large supplier of specialty vehicle drive-train systems and components along with off highway vehicles. They take great pride in being a chosen supplier to their customer base. AxleTech strives to meet and exceed their clients' expectations for delivery, quality, service and technology. They believe in working within an atmosphere that encourages the utmost integrity with empowered collaboration, together with a relentless pursuit of results.

AxleTech International is a General Dynamics business. They believe strongly in actively utilizing principals of ecological stewardship and safety in how they do business. The business has put various programs in place so as to articulate these values within their business policy. AxleTech gladly shares this policy and welcomes interested parties to provide them with any questions or comments, since they are happy to share and promote this policy with a greater knowledge of their efforts. They are really committed to preserving and improving the environment. AxleTech has an EHS program that not just protects the natural world but which also actively protects their neighbors and employees as well.

AxleTech prides themselves as being a ground-breaking drive-train solutions provider. They specialize in manufacturing and designing planetary axles meant for both military and commercial applications. These applications vary from airport ground support to construction equipment. AxleTech particularly designs axles in order to meet particular application demands. They have more than 1000 different axle specs within their present offering. With more than one hundred years of history and skill, AxleTech proudly supplies the most complete solution for any of your axle requirements. The business is well known in several commercial and military applications. They provide complete axle assemblies for aftermarket replacement needs, together with servicing axle needs for OE production. Their high mobility ISAS have added details which can be found in the "ISAS" product collection.
