

Electrical Parts for Forklifts

Forklift Electrical Parts - Forklifts can be purposely marked for use in hazardous locations. A labeled lift truck denotes the design has met the least standards of ANSI/UL 558 utilized for engine powered lift trucks or ANSI/UL 583 meant for electric forklifts for the type of label put.

The application for labels intended for lift lift trucks could be found in National Fire Protection Association NFPA 505 - Powered Industrial lift trucks including: Maintenance and Operation, Type Designations, and Areas of Use. Ask your local insurance carrier and Fire Marshall for additional information regarding the permitted uses of industrial powered trucks in your application.

If the certain forklift meets the outlined standards, labels can be placed. A labeled forklift would show the type of designation located on the nameplate and will have a correctly corresponding label put.
