

Concrete Hoppers

Concrete Hopper - The self-dumping hopper attachment can automatically start to both unload and release when the bumper release contacts the side of a dumpster. Once unloading is done, the hopper is able to go back to original upright and locked position. This particular piece of equipment also comes with a cable which enables operation from the seat of the lift truck to be able to have the option of manually dumping the hopper. There is a locking chain provided to be able to lock the hopper to the tine truck. This product is constructed with consistent and reliable robotic welds for utmost strength. The lift truck dumping hopper likewise has a blue powder coat finish so as to maintain durability.
