

Rockwell Part

Rockwell Parts - AxleTech International is a premier provider in the world of specialty vehicle drive-train systems and components along with off highway vehicles. The business prides itself on being its customers' preferred supplier. AxleTech strives to exceed and meet their clients' expectations for technology, delivery, quality and service. They believe in working in an environment that supports the utmost integrity with empowered collaboration, along with a unrelenting pursuit of results.

AxleTech International is a General Dynamics business. They believe strongly in actively utilizing principals of environmental stewardship and safety in how they do business. The business has put various programs in place in order to articulate these values in their business policy. AxleTech gladly shares this policy and welcomes interested parties to provide them with whichever questions or comments, since they are happy to promote and share this policy with a greater knowledge of their efforts. They are really committed to improving and preserving the natural environment. AxleTech has an EHS program which not only protects the natural environment but which even actively protects their neighbors and staff as well.

AxleTech specializes in the designing and manufacture of planetary axles meant for both commercial and military applications, which could include anything from construction equipment to airport ground support. They take great pride in being a ground-breaking drive-train solutions provider as well. AxleTech specifically designs axles in order to meet certain application demands. They have over one thousand different axle specs in their existing offering. With more than 100+ years of skill and history, AxleTech proudly supplies the most complete solution for whichever of your axle requirements. The company is well known in various military and commercial applications. They provide complete axle assemblies utilized for aftermarket replacement requirements, along with servicing axle needs for OE production. Their high mobility ISAS have extra details which can be found in the "ISAS" product selection.
