

TCM Forklift Part

TCM Forklift Parts - In the global business of material handling, lift trucks play a major part for transporting industrial goods. Primarily innovated as industrial vehicles during the 1930s in the United States, forklifts gained recognition following WWII during the 1940s. Becoming an efficient and reliable means to material handling solutions, the need and practicality of these machinery spread globally.

Initially started as Toyo Carrier Manufacturing Company Limited, in 1949, the company was later renamed Toyo Umpanki Co. previous to becoming known as the TCM Corporation. Founded by Mr. N. Niwa manufactured Japan's very first lift truck. Over the years, TCM forklifts have become a worldwide leader in lift truck manufacturing and have built a solid reputation with the industry. TCM began building lift truck manufacturing sites outside of Japan during the 1980s and is presently engaged in lift truck manufacturer at three foreign factories in Europe, China and the United States.

With more than 50 years of accumulated technology and expertise, TCM has been proudly making many models of industrial forklifts, making their models known all around the world. With a strong and energetic workers, TCM has been able to continually work towards becoming a future leading material handling company.
