

Advance-Nilfisk Parts

Advance-Nilfisk Parts - Think about how long and tiresome it will be to clean-up after a party, with no help from equipment. Not too long ago, the dust from upholstery and carpets had to be beat out of them manually; brooms, brushes and cleaning cloths were the leading cleaning products back then.

The man who established Nilfisk-Advance, P.A. Fisker, started as an electrical engineer who really liked to work on electrical motors. After establishing his business during 1906, he began to produce motors to drive drills, coffee grinders, fans and machine tools. Mr. Fisker's dream from the beginning was to have a global company advertising products globally.

The Nilfisk C1 was a revolutionary breakthrough in the cleaning industry. Mr. Fisker invented an amazing, ground breaking vacuum cleaner which can be operated by one person since it only weighed 17.5 kilos! This creation came in a time where numerous cleaning machines were huge and needed 4 or more operators, hence, the Nilfisk C1 transformed everything and developed the method we clean forever. The brain behind these first cleaning machines remains unparalleled. Cleaning equipment offer a brilliant solution to an existing crisis; things get dirty and should be cleaned on a regular basis, without too much effort.

Slowly but steadily, Nilfisk-Advance developed all through the decades. During the nineteen eighties, this growth actually took place when the company became a part of the NKT Group. Their new owners' drive and concentration made Nilfisk-Advance take a huge leap forward within the business, aiming to be among the biggest universal players in the market of professional cleaning equipment. Nilfisk-Advance is now located in every part of the globe by steadily acquiring many small businesses so as to expand their product portfolio and presence in new markets. They are really proud to offer different cleaning solutions to fit each and every requirement.
